

Project Part 1

Zack Bonner — CSCE 242, Web Applications

Website Name

Fourth & Stats

Description of Topic

Fourth & Stats is a website for NFL fans who like looking at stats. It has team rankings, player leaderboards, and historical records all in one place. It is made for fans who like the numbers side of football, whether they just want to see who is leading the league or want to compare two players. A glossary breaks down stats in plain language so newer fans can understand them too. Photos and a comparison tool are used throughout the site so it does not feel like a boring page of numbers. The goal is to give fans an easy place to check stats all season.

Pages

- Home
- Team Stats & Rankings
- Player Leaderboards
- Historical / All-Time Records
- Standings & Schedule
- Photo Gallery
